In a survey conducted by the India SME Forum, as a part of its annual state of the MSME study in 19 States, over 34 per cent of the overall 1,29,537 MSME respondents employ digital methods to communicate with their employees, customers and suppliers. Only 7 per cent have fully embraced digital technology or SAAS Solutions. Over 50 per cent of the MSMEs highlighted several benefits (increase in profitability, operational efficiency and improved customer engagement), however 70 per cent of the MSME respondents cited lack of knowledge as a key barrier for wider adoption.

The pledges to cut down carbon emissions given by three-fourths of the countries, including India, are insufficient to meet the ambitious goal of keeping global warming below 1.5 degree Celsius above pre-industrial levels by 2030, according to a new report released last week.

An analysis of the current commitments made by 184 countries to reduce emissions between 2020 and 2030 shows that 75 per cent of the climate pledges are partially or totally insufficient to contribute to reducing greenhouse gas (GHG) emissions by

50 per cent by 2030, said the report titled 'The Truth Behind the Climate Pledges', brought out by a non-profit organisation, The Universal Ecological Fund. The report was authored among others by Robert Watson, former Chair of the UN Intergovernmental Panel on Climate Change (IPCC) and James J McCarthy, former co-Chair of IPCC Working Group II, which assesses the vulnerability of socio-economic and natural systems to climate change.

India's GHG emissions, the report said, increased by about 76 per cent between 2005 and 2017, and are expected to increase further till
