#### Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. #### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### BUSINESS ACTIVITY

NATCO Pharma, Inc., a "C" Corporation, and hereafter referred to as "NPI", was incorporated in the State of Delaware on October 10, 2006. NPI had originally been formed to acquire the assets of H. Morgan Corporation T/A Savemart on July 9, 2007. NPI had been engaged in the retail sale of health and beauty aids and the operation of a pharmacy at 241 West Roseville Road, Lancaster, Pennsylvania until the effective date of March 31, 2016 when the tangible and intangible assets of NATCO Pharma, Inc. were sold to Care Mart, Inc. The operations of the store were then transferred to Care Mart, Inc. NPI had ceased all of its active operations on that date.

Following the sale of the store NPI has been progressively making loans and investments in NATCOfarma DO Brazil, an affiliate of NPI. As of December 31, 2021, NPI had converted all of the outstanding loans and associated interest accruing on those loans into 13,102,296 common shares of NATCOfarma DO Brazil, for an 14.14% equity ownership position of the affiliate's common equity.

On December 24, 2021 NATCO Pharma, Ltd. acquired 15,200 common shares of NPI with an investment of \$15,200,000. NPI had liquidated its entire portfolio of marketable securities investments of \$3,041,237 earlier in the month of December, 2021 and also received a loan of \$4,000,000 from its affiliate, NATCO Pharma (Canada), Inc., a wholly-owned subsidiary of NATCO Pharma, Ltd.

On December 29, 2021, \$22,000,000 was transferred to a Citi Escrow Account to be made available for financing activities that were scheduled to take place at the onset of January, 2022. Effective January 1, 2022, NPI acquired 100% of the membership ownership interests of Dash Pharmaceuticals LLC for \$18,000,000 from the three founding members of Dash Pharmaceuticals Ltd (hereafter referred to as "Dash") and CBC Capital who, prior to the sale, had owned 1,000 Class A Units of Dash. The three members will continue in their management roles as employees of the newly-formed venture. Also, on January 1, 2022 NPI provided a five-year loan of \$4,000,000 to Dash which satisfied the outstanding obligation that Dash had with CBC Capital prior to NPI's purchase of the company.

FOR THE YEAR ENDED MARCH 31, 2022 AND MARCH 31, 2021

Dash's primary business focus will continue to be to "develop partnerships, product licensing, sales, marketing, and the distribution of generic pharmaceutical products" with an emphasis on "the development and distribution of niche products across a variety of dosage forms and therapeutic categories."

#### BASIS OF ACCOUNTING

NPI presents its financial statements using the accrual basis method of accounting in compliance with accounting principles generally accepted in the U.S.A.

#### CASH

For purposes of the statement of cash flows, cash includes amounts on hand and amounts on deposit.

#### MARKETABLE SECURITIES

The present purpose and use of the investment portfolio has been characterized as having the investments "available for sale" rather than being held to maturity and, as such, these securities are being reported in the financial statements at current market value as of the ends of the respective reporting periods.

#### FAIR VALUE MEASUREMENTS

Generally accepted accounting principles provide a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities [Level 1 measurements] and the lowest priority to unobservable inputs [Level 3 measurements].

Assets and liabilities that are required to be recorded at fair value in the balance sheet are categorized based on the inputs to valuation techniques as follows:

Level 1. These are assets and liabilities where values are based on unadjusted quoted prices for identical assets in an active market that NPI has the ability to access. As of March 31, 2022 and March 31, 2021, there are no Level 1 assets or liabilities.

FOR THE YEAR ENDED MARCH 31, 2022 AND MARCH 31, 2021

<u>Level 2</u>. These are assets and liabilities that are based on the following inputs:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs which are derived principally from or corroborated by observable market data by correlation or other means.

Level 3. These are assets and liabilities where inputs to the valuation methodology are unobservable and significant to the fair value measurement. As of March 31, 2022 and March 31, 2021 there are no Level 3 assets or liabilities.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

#### INCOME TAXES

NPI has elected taxation as a "C" Corporation for federal and state income tax purposes. The provisions for income taxes are based on taxes payable or refundable for the current year. Deferred tax assets or liabilities are calculated by applying currently enacted income tax rates to temporary differences between the amount of taxable income and pretax financial income and between the tax bases of assets and liabilities and their reported amounts in the financial statements. As changes in tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through the provision for income taxes.

NPI has implemented the guidance for uncertainty in income taxes under the provisions of FASB ASC 740. Using that guidance, tax positions initially need to be recognized in the financial statements when it is more-likely-than-not that the tax positions taken will be sustained upon examination by the tax authorities.

As of March 31, 2022, NPI had no uncertain tax positions, or interest and penalties that qualify for either recognition or disclosure in the financial statements.

FOR THE YEAR ENDED MARCH 31, 2022 AND MARCH 31, 2021

With few exceptions, if any, NPI is no longer subject to federal, state or local income tax examinations by tax authorities for tax years ending prior to March 31, 2019.

#### USE OF ESTIMATES

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### DATE OF MANAGEMENT'S REVIEW

Subsequent events have been evaluated up to the date of the issuance of this report on May 22, 2022.

#### NOTE 2 - CONCENTRATION OF CREDIT RISK

NPI maintains a checking account with Fulton Bank. Accounts maintained at commercial banks are insured, in the aggregate per depositor, by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. Management regularly monitors the financial conditions at the bank and tries to keep these risks at a minimum. NPI has not previously suffered any such losses. At March 31, 2022 NPI's operating account had a balance of \$343,846. Management is satisfied with the security of the current level of cash funds on hand being secure and necessary at this time to fulfill its current objectives.

#### NOTE 3 - INVESTMENTS IN MARKETABLE SECURITIES

On June 1, 2021 the entire investment portfolio managed by Oppenheimer & Co, Inc. consisting solely of a small money market account and \$2,998,000 of short-term bonds of Axis Bank yielding a 2.875% coupon rate of interest were redeemed on the bonds' June 1, 2021 maturity date. The proceeds of the redemption along with their associated interest earnings of \$43,096 were transferred to several money market accounts maintained within the Oppenheimer & Co. Inc. controlled network of Banks referred to as "The Advantage Bank Program". The bond redemption generated an overall capital loss of \$16,545 attributable to the premium prices upon which the short-term bonds had been purchased following their issuance of which \$7,851 of the loss had been reported as unrealized in the last quarter of the year ended March 31, 2021. As referred to in Note 1, the entire investment portfolio of \$3,041,237 in The Advantage Bank Program was liquidated and transferred to NPI's operating bank account to facilitate the December 29, 2021 transfer of \$22,000,000 to the Citi Escrow Account for the acquisition of the ownership equity of Dash Pharmaceutical LLC effective January 1, 2022.

In the previous year, on June 12, 2020 NPI had also liquidated the entire portfolio of marketable securities that it had been holding with Global Investment Funds freeing up \$3,310,214 in cash at that time. The transaction netted a capital gain of \$255,215 on the disposition and incurred Federal Capital Gains taxes of \$50,792 that were paid shortly thereafter. In the month of July, 2020 NPI "rolled-over" the proceeds from the June 2020 sale into an investment account maintained with Oppenheimer & Co. Inc. The funds were then invested into the short-term bonds of Axis Bank referred to above with a 2.875% yield that matured and were redeemed on June 1, 2021.

The costs, fair market values and unrealized gains/(losses) from the investments, are being treated as being "available-for-sale" and as such, are reported on the financial statements at the period ending fair market value.
